

Society of Obstetricians and Gynaecologists of Canada
Children's program for 64th Annual Clinical Meeting
June 25-29, 2008
Calgary, Alberta

KidScenes has been creating children's programs to make conventions, conferences and meetings family friendly since 1994. Our qualified and fun-loving caregivers will provide a safe, action packed and memorable program for your children. To ensure the best care possible for your child, we keep our ratios low; 1:2 for children under 2, 1:5 for children under 5 and 1:8 for children under 12.

For the 64th Annual Clinical Meeting, **KidScenes** will run 3 programs to ensure activities and care are age appropriate and fun for everyone.

A different theme for each day will make every day a new adventure!

Children under 4 years old

KidScenes will set up an environment that is welcoming and safe. Caregivers will work with your children, playing small group games, making crafts and having time to play with toys supplied by us. Part of the daily program will include a quiet time to ensure that all children can be in good spirits.

Children 4-7 years old

KidScenes will set up an environment that is welcoming, safe and says "fun"! Caregivers will work with small groups of children to make new friends, play games and create unique crafts. **KidScenes** will supply toys, craft materials, and energetic staff to implement a memorable, fun-filled week.

Children 8- 12 years old

KidScenes will set up an environment that will have the children begging to return the next day. Activities will include group games, crafts, outings to nearby parks (both indoors and outdoors), and swimming. Our fun-loving staff will ensure that your children are always kept safe while having a ton of fun.

To register your child for this program, fill out the **KidScenes** registration form and waiver and return it to Ingrid Willie by **Wednesday, June 11, 2008**.
