

**Locum Maternal-Fetal Medicine
Regina, Saskatchewan Canada**

Posting Date: April 03, 2023

Remuneration: Alternative Funding Plan Contract

Benefits: Responsibility of the physician

Language of Work: English

Position Profile:

The Regina Area is seeking a dynamic and team-oriented Maternal Fetal Medicine (MFM) Specialist to immediately fill a 0.9 FTE AFP contracted position. The successful candidate will be offered a competitive rate of \$2,442 per day for a total of 198 days per year. We encourage applicants to apply for a locum position of a minimum of one week if interested in a shorter locum opportunity.

The successful applicant will be responsible for diagnosing and managing high-risk pregnancies with maternal and/or fetal diseases. This physician will conduct consultations, diagnostic procedures, and sonography reports at the Fetal Assessment Unit at the Regina General Hospital. Consultations will include, care plans for complex high-risk pregnancies, diagnosis and management of fetal anomalies and abnormal prenatal aneuploidy screening, care of women with substance use problems, evaluation of teratogen exposures and genetic risks, and diabetes in pregnancy clinics. The physician will devise and help implement practice guidelines for optimal obstetrics care in Regina.

Obstetrical & Gynecological services are based at the Regina General Hospital (our trauma center representing all major surgical specialties, except transplant) with 36 obstetrical beds. There are almost 4,000 deliveries each year and a corresponding volume of gynecology. Specialists are supported by a complete range of neonatal, pediatric medical, and surgical sub-specialists. In these superb facilities, the region will continue to provide the complete continuum of care and enhance care for pregnant women and newborns.

The Saskatchewan Health Authority (SHA) is dedicated to learning and is a partner in the growing educational needs of medical students and residents from the College of Medicine, University of Saskatchewan. The physician is eligible for a clinical appointment with the University of Saskatchewan and would be involved in the teaching of undergraduate and postgraduate medical students and in the provision of continuing medical education within the province.

The Community:

Regina is the capital of Saskatchewan, Canada, and is a beautiful oasis on the prairies with a steadily growing population exceeding 230,000. According to MacLean's Best Communities in Canada 2019, Regina came in second in the Prairies and 74th across the country, scoring well in population growth, commute, amenities, and culture. Regina was Canada's 33rd fastest-growing community in 2019, adding 12.7 per cent more residents over the past five years. Regina is known for its generous, friendly people and rich community pride, fuelled by the "I Love Regina" campaign. This welcoming prairie city has an abundance of parks, sports and recreational facilities, bicycle pathways, family attractions, and an exceptional quality of life. There are many attractions and events that take place all year in Regina for residents and tourists alike (www.regina.ca).

The Saskatchewan Health Authority:

The SHA is the largest organization in Saskatchewan, employing over 44,000 employees and physicians responsible for the delivery of high-quality and timely healthcare for the entire province. We are driven by the commitment to improve frontline patient care for Saskatchewan people, and we are working together to better coordinate health services across the province to ensure that patients receive high-quality, timely healthcare, wherever they live in Saskatchewan.

The SHA supports a shared commitment to a Representative Workforce that is respectful and inclusive of all staff and clients. We welcome applications from those who will contribute to the diversity of our community.

Qualifications:

Successful candidates will hold certification from the Royal College of Physicians and Surgeons of Canada in Obstetrics and Gynecology, have completed an MFM fellowship, and be eligible for provisional or regular licensure to practice in Saskatchewan. Preference will be given to candidates with academic and research experience.

This individual should be a team player, be able to interact effectively with patients, colleagues, staff and management, and function well in a high-volume environment with a commitment to provision of high-quality patient and family-centered care.

In accordance with immigration requirements, preference will be given to Canadian citizens and permanent residents of Canada.

The start date for this position is negotiable. Applications will be accepted until the position is filled.
