

OB/GYN General Locum to Permanent Practice Opportunity

The OB/GYN group in Owen Sound, Ontario (about 2h north of Toronto) is looking for a new permanent member to join us on beautiful Georgian Bay. If interested we can provide a locum position for 2 weeks to 6 months with no long term commitment giving the opportunity to “try on” the practice!

We are a Level 2 center with approximately 800 births a year. We currently have 6 full time positions (one position is filled with 2 half-time physicians) and are funded through an alternative funding plan (AFP) so income is guaranteed with no lag to build up a practice volume. We have a Level 2 ICN with Paediatric and Anaesthesia support 24/7.

We have OR support for advanced laparoscopy and ample operating room time. We offer consultation services for a large catchment area and to local level 1 maternity centers.

The area of Grey-Bruce has fantastic Georgian Bay trails, beautiful Lake Huron with its sandy beaches and Blue Mountain just down the road. We are able to achieve a comfortable and sustainable work-life balance. Our group works closely and functionally - we manage a co-operative obstetric practice and often assist each other in the OR.

If you have interest in spending some time with us this summer or are interested in more information regarding a permanent position either email or call and we can discuss details of the position. We also accept weekend locums with a guaranteed income and can provide more information if interested.

Sincerely,

Melissa Comette MD, FRCSC and Britt Moore MD, FRCSC
