Horizon Health Network, Saint John area (Region 2), is actively seeking two (2) Maternal Fetal Medicine Specialists to join a collegial and hardworking group of Obstetricians in Saint John, New Brunswick.

The Saint John Regional Hospital is the largest tertiary care hospital in New Brunswick and is the Trauma and Cardiac Centre for the province. We serve the greater Saint John area of approximately 120,000 people with an annual birth rate over 1,500/year. We are a satellite teaching site for Dalhousie University Obstetrics and Gynecology, Family Medicine and Emergency Residency Programs. We currently offer a very competitive AFP funded MFM position with optional call responsibilities. We are seeking a dynamic MFM Specialist who can help build our existing Maternal Fetal Medicine Unit. Wide array of opportunities for teaching, research and medical leadership is available for any prospective candidates.

In Saint John, New Brunswick, you can explore the vast sandy beaches, kayak the intricate networks of rivers and sail the open seas. Gentle rolling hills and green rural valleys invite the adventurous hiking and biking enthusiasts. This is the life you’ve been looking for!
