

COME WORK IN INTERIOR BC!!

If you're looking for a great locum experience working in the beautiful Interior BC, this might be the opportunity for you!

We are looking for a year long OBGYN locum in the beautiful Vernon BC starting April 2021. We would accept someone who wanted to do the entire year, of parts of the year depending on availability.

We are a group of 6 generalist OBGYNs splitting our time between private clinics, hospital based practice, call responsibilities and surgical time in the OR. We are a very supportive & collegial group of OBGYNs, who have a big focus on quality of life while also really enjoying the work that we do.

We provide consultative Obstetrics on call, with some rare primary obstetrical care for twins or complex obstetrical patients. We also provide on call gynecology services. We do home call - where you can be up for many hours of the night, or spend most of the night at home in bed. Our hospital site does between 800 -900 deliveries per year and the majority of our patients are managed by our GP and midwifery groups, whom we have excellent working relationships with.

We get ample OR time and often assist one another for complicated cases.

We spend on average anywhere from 1-4 days in clinic during a given week depending on our working schedule that week and have access to 2-3 OR days a month. We practice a broad range of Gynecology from infertility care, urogynecology, vaginal surgery and complex laparoscopic cases.

Call is typically on a 24hr basis, with weekend coverage being 48hrs. Call requirements for the locum could be anywhere from 3-5 call shifts per month (24hr each).

The OBGYN requiring a locum works part time, however there is the option to do part time or all the way up to full time work depending on desire of the applicant.

Vernon is a beautiful place throughout all four seasons with warm sandy beaches in the summer, three lakes, and ample parks and hiking activities. We have many amazing mountain biking trails and access to the downhill trails at Silver Star in the spring/summer. The fall and spring in Vernon host mild temperatures and beautiful surroundings.

We also are fortunate to have access to some amazing cross country ski trails in the winter and our downhill mountain, Silver Star, gets a lot of snow in the winter, being only a 30 minute drive from downtown.

We are a 45 minute drive from the airport in Kelowna, making access to and from the Interior easy. It's a great place to spend a year, especially during COVID times where work can be so enjoyable and there is so much to do outdoors right in your own backyard.

We will likely be looking at hiring another OBGYN in the future and thus this is a great opportunity for someone looking to potentially relocate to the Okanagan to check out our site and see if Vernon might be the right fit for you.

Interested applicants can contact our group by emailing dr.procyshen@gmail.com .
